

Important information

- This is a marketing communication and should not be perceived as investment advice. Please refer to the fund's prospectus and KIID available at www.skagenfunds.com before making any final investment decision.
- The presentation is only intended for retail investors in Denmark and European institutional investors based in countries in which the fund has marketing approval.
- SKAGEN m² is an actively managed fund with a global investment mandate. The Fund's strategy is to invest in financial instruments, which take advantage of the underlying real estate risk and return in the relevant markets. The fund shall seek to maintain a reasonable balance between geographical regions and sub-sectors. The fund's benchmark is MSCI ACWI Real Estate IMI Net total return index USD in NOK. Since SKAGEN m² is an actively managed fund the portfolio will deviate from the benchmark's composition.
- The value of a fund with risk class 6-7 may increase or decrease significantly. The fund is in risk category yellow in Denmark.
- Subscription is made in fund units and not directly in shares or other securities.

*Annualized net of fees performance in EUR SKAGEN A, as of March 31, 2022

Absolute and relative annualized performance (EUR)

EUR A Class	YTD	1 Year	3 years	5 years	Inception
Relative Return	2,2%	5,1%	4,5%	4,5%	0,5%

- All return figures are net of fees and measured in EUR as at 2022-03-31. Inception for A-class 2012-10-30
- All return figures over 12 months are annualised (geometric return)
- The benchmark is MSCI ACWI Real Estate IMI Net total return index USD. In the period from 11 July 2017 to 30 September 2019, the benchmark was MSCI ACWI Real Estate IMI ex REITS

Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on market developments, the fund manager's skills, the fund's risk profile and management fees. The return may become negative as a result of negative price developments. There is risk associated with investing in funds due to market movements, currency developments, interest rate levels, economic, sector and company-specific conditions. The fund is denominated in NOK. Returns may increase or decrease as a result of currency fluctuations.

Why invest in global listed real estate?

- **Attractive asset class:**
 - Favourable ***total return*** profile with predictable cash flow and potential for capital gains and inflation protection
 - Improved risk / return profile due to declining long-term ***correlation*** with equities and bonds
 - Multiple layers of ***diversification***
 - Global investment universe driven by ***local dynamics***
 - Targeted exposure to ***economic growth***
 - Megatrends are important ***long-term value drivers***
- **Appeal of listed exposure:**
 - Large and diversified ***investment universe***
 - ***Transparency*** and ***liquidity***
 - Easier ***access*** to non-traditional property types
 - ***Flexibility*** to exploit ***undervalued*** markets / cities / segments

Agenda

General real estate observations

Fund update

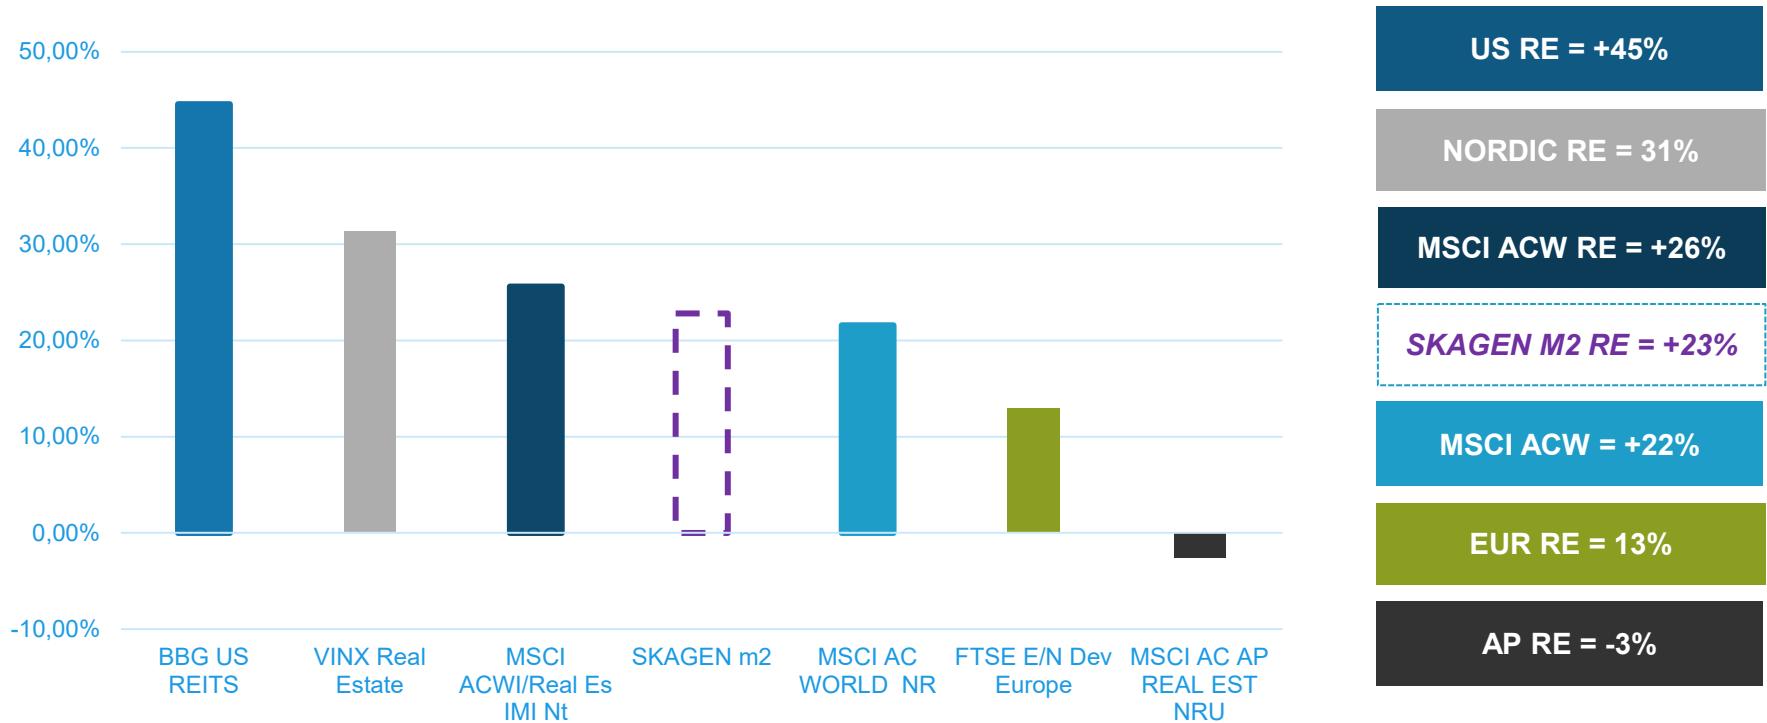

Case

Are all bets are off? Where are we now?

- Geopolitics/ Covid
- Recession.....Stagflation?
- Back to the 70's?
- Inflation vs. financial stability?
- No credit crisis
- Markets calibrating rate hikes
- Find the balancing point
- **Resilient diversified real estate**

Cash flow for global RE is expected to remain well above LT average

Strong fundamentals still supports global real estate

Global and U.S. REITs⁽¹⁾ cash flow growth estimates⁽²⁾(%)

- Fiscal and monetary stimulus
- Inflation adjusted leases
- Economic reopening's
- Strong consumer spending
- Disruptive demand i.e I&L

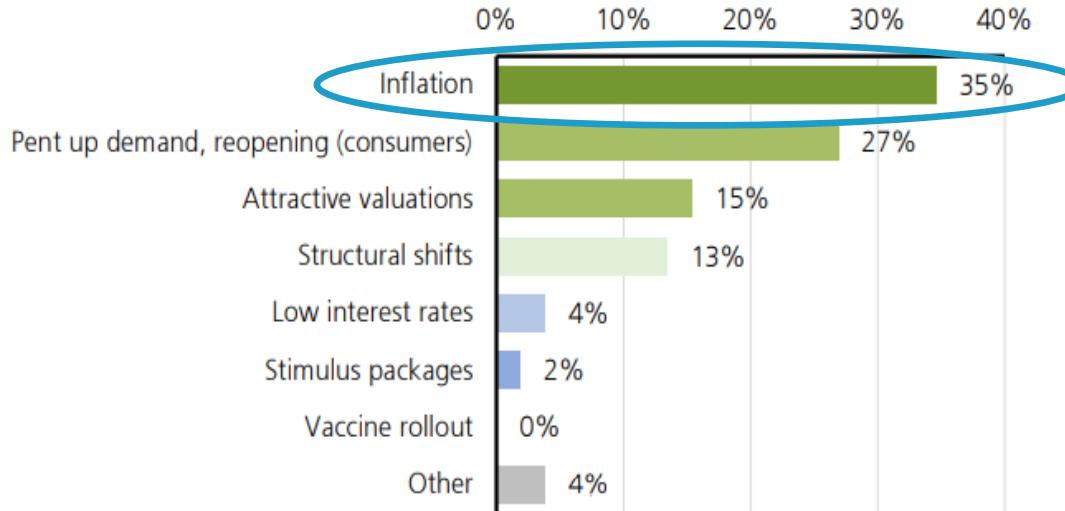

- Interest rates
- Supply-chain constraints
- Geo/Macro politic turmoil
- Economic growth

Direction of the economy and job growth tend to have a greater impact on RE returns than rates

What are 350 bn USD in AUM think? is the most compelling driver of Real Estate right now?

What is the most compelling driver for listed real estate?

Source: 2022 UBS Investor Survey. UBS Evidence Lab.

Note: As of 18th march. 54 respondents managing/ advising approx. 350 bn\$ in aggregate. Respondents are well diversified by geography and 91% investing in global listed RE.

Dynamics of drivers of real estate value

Drivers of real estate value:

$$\text{Value} = \frac{\text{Rent}}{\text{Yield}}$$

Rent drivers

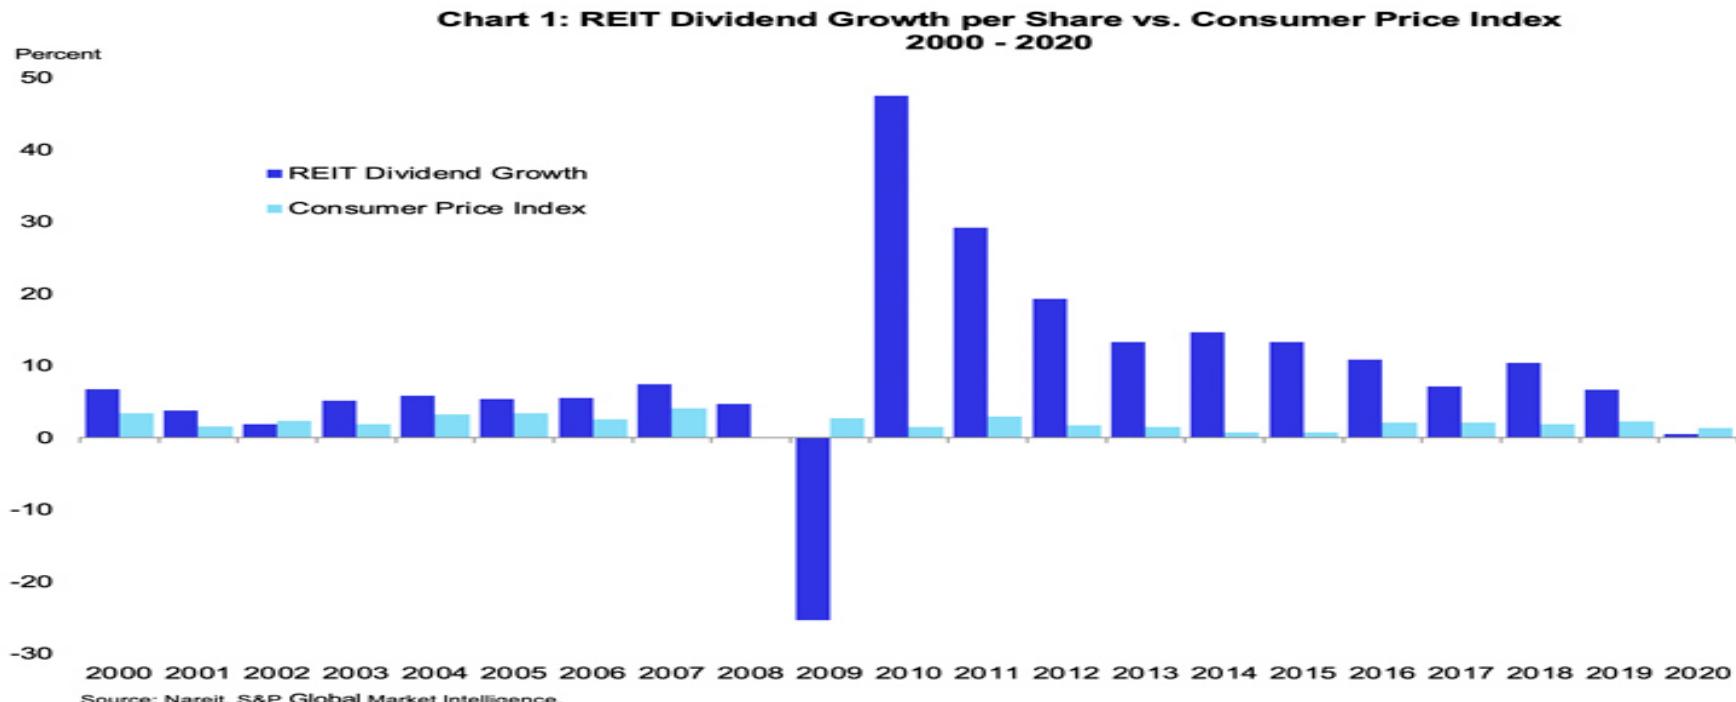

- Supply and demand
- GDP growth
- Inflation
- Vacancy rates; retail sales; etc

Yield drivers

- Growth expectations
- Opportunity cost of capital
(i.e. return on alternative assets)
 - *E.g. borrowing costs (**bond yields**)*
 - *Risk appetite*

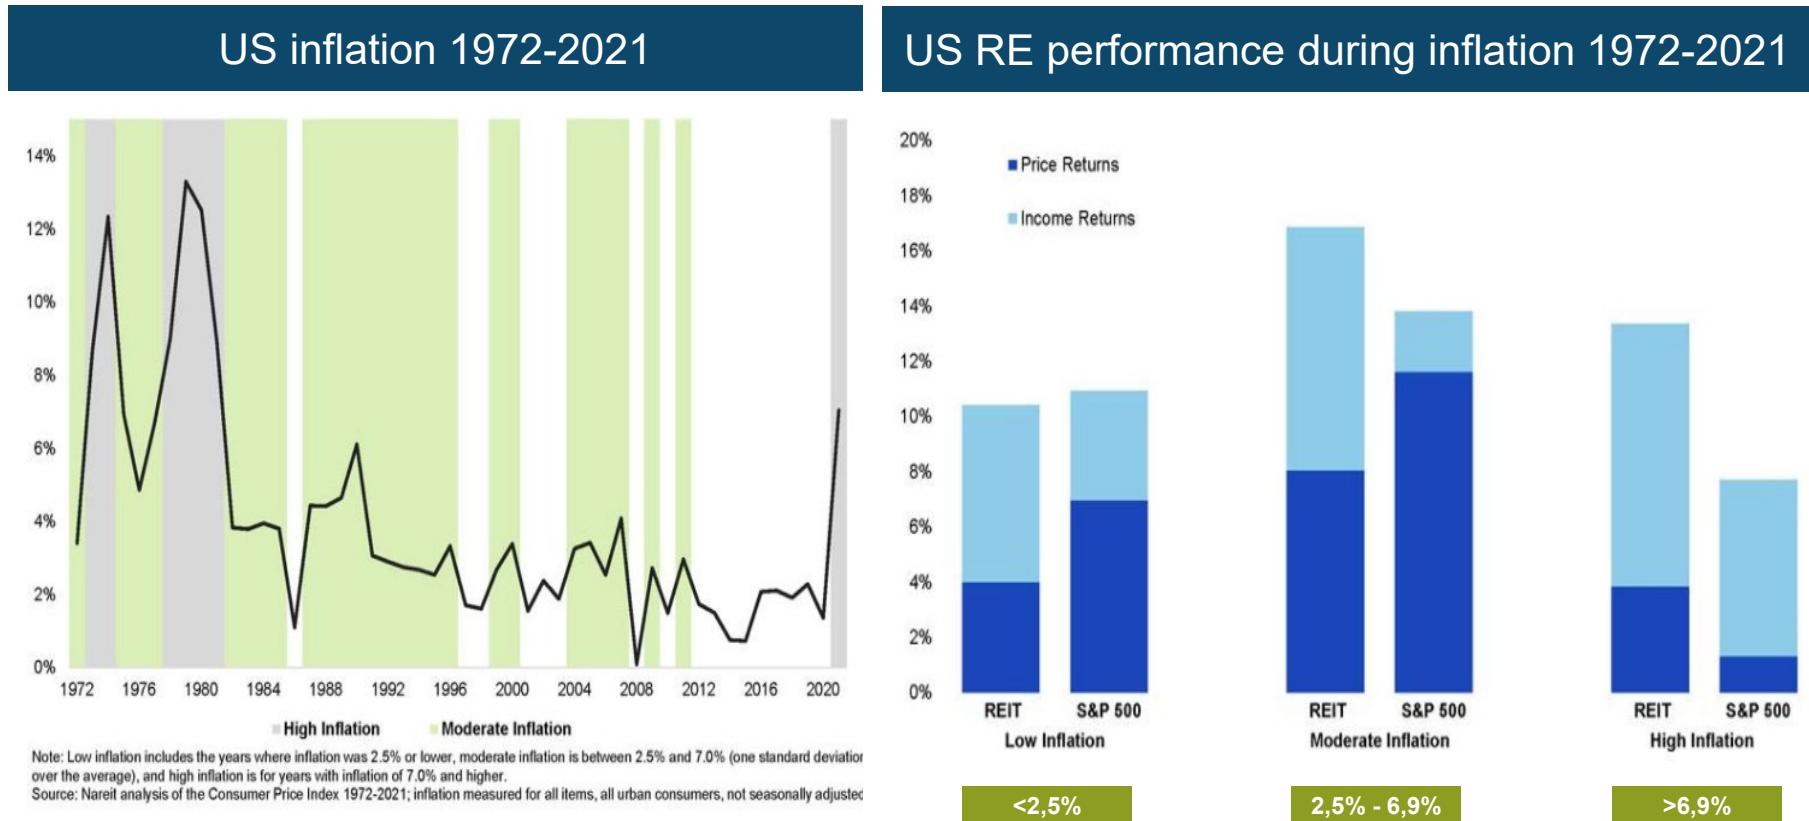

Long term dividend growth outpace the inflation

What about the last ~50 years?

Source: Nareit analysis of prices for the FTSE Nareit All Equity REIT Index and S&P 500 Index: 1972-2020. Inflation measured for all items, all urban consumers

Recovery in fundamentals continues but slowing

- Stimulus and re-openings still ***drives recovery*** in fundamentals
- Market are calibrating interest rates expectations – volatility!
- Drivers of RE (***supply, demand, credit***) generally in good balance
- ***Valuation dispersed in geographies and segments*** but contracting
- Sub segments continue the ***pre-pandemic long term trends***
- ***Inflation typically beneficiary for real estate***
- Lot of money ***committed*** to the asset class

- Risks to scenario: Geopolitics, Growth, Unexpected rate hikes/bond yields

Attractive income, inflation protection and pockets of value

5 reasons to buy SKAGEN m2

1. Broad global mandate
2. Real-estate like return but liquid
3. Exposure to untraditional real estate segments and economic growth globally
4. Contrarian and independent thinking
5. Long-term active value based philosophy
